CONTROL
SOLUTIONS™

Commercial Products from Control Solutions LLC		
1. Motor Controllers		
Part Number	Item Name	List Price
 CS1108X	PROGRAMMABLE MOTOR CONTROLLER The CS1108 is a commercial industrial-grade DC motor controller with programmable PWM functionality. Designed to operate a 12v-24 VDC motor. This small form-factor controller can be embedded in many OEM products and can be used in a wide variety of applications and is programmable for different acceleration profiles.	Call For Pricing
 CS3208X	DC MOTOR CONTROLLER The CS3208 is a hardened industrial-grade DC motor controller with programmable PWM functionality. Designed to operate a 24 VDC motor. This motor control can be used in a wide variety of applications and is programmable for different acceleration profiles.	\$6,995
 CS3308X	DC MOTOR CONTROLLER The CS3308 LVSR is a programmable, hardened industrial-grade DC PWM motor controller that incorporates a long neck break-away connector for 24V power. This motor control can be used in a wide variety of applications and is programmable for different acceleration profiles.	\$6,995
 CS3248X	PROGRAMMABLE DC MOTOR CONTROLLER The CS3248 is the 2nd-generation motor controller from the CS3208 family and is equally applicable for usages in industrial and commercial usages where robust motion control is required.	\$6,395
 CS3249	LOW PROFILE DC MOTOR CONTROLLER The CS3249 has input/output and power ports that are located on the side of controller as opposed to the top. The top has special standoff mounting plate. The CS3249 is part of the CS3208 family and is equally applicable for usages in industrial and commercial usages where robust motion control is required.	\$6,895
 CS1107X	PROGRAMMABLE MOTOR CONTROLLER The CS1107 is a different form factor for the CS1108 PWM controller for DC motor applications and can be reprogrammed in firmware for a wide variety of industrial applications.	\$289
 CS3217X	DC MOTOR CONTROLLER The CS3217 is a modified CS3208 controller where the software profile has been preset by the CSLLC engineers. It can be reprogrammed in firmware for a wide variety of industrial applications.	\$7,099
 CS3225X	DC MOTOR CONTROLLER (SLIM-FIT) The CS3225 is the DC-powered motor controller originally designed to fit within the cavity of a vehicle door (slim form factor) using programmable PWM technology. This controller has a built-in battery charger with onboard battery level status indicator.	\$4,295
 CS3226X	DC MOTOR CONTROLLER The CS3226 is a modified CS3248 DC-powered motor controller designed to fit within a small cavity and can be surface-mounted while retaining access to all connections.	\$4,800
2. User Interface Controls		
 ASM000351X	EMERGENCY SWITCH The ASM000351x is a push-pull switch that is a waterproof assembly useable as an emergency stop switch for harsh environments. The emergency stop switch can be placed virtually anywhere on your custom application to provide easy access.	\$929
 ASM000355X	DOOR-MOUNTED TOGGLE SWITCH Hermetically-sealed enclosure. This is a four-switch assembly consisting of two SPDT toggle switches with momentary contact plus two SPST toggle switches. It can be used for a wide variety of commercial applications. The assembly terminates in Amphenol connectors for wiring to other ruggedized systems.	\$899

	<p>VEHICLE POWER MODULE FOR AUXILIARY DEVICES The CS2150 is a microprocessor-based power distribution module capable of providing multiple power outlets from a common 24V battery power source. Each output is switch-controlled. Outputs are provided for 24V, 12V, and 5V USB.</p>	<p>\$ 3,729</p>
	<p>JOYSTICK ACTUATOR The CS3209 is a single-axis joystick (left-right or up-down motion) that has been developed for industrial and commercial applications in tough environments and harsh conditions</p>	<p>\$2,195</p>
	<p>JOYSTICK ACTUATOR AND CONTROL The CS3218 is a rugged small form-factor two direction joystick controller that can be used in conjunction with a CS motor controller in rugged environments.</p>	<p>\$8500</p>
	<p>HEAVY-DUTY THUMB-DRIVEN WATERPROOF ACTUATOR Heavy-duty thumb-driven waterproof actuator that can be mounted to industrial equipment to vary the speed of motor control modules. Requires the use of ASM001175A cable assembly</p>	<p>\$1,249</p>
	<p>HEAVY-DUTY FINGERTIP TOGGLE ACTUATOR Heavy-duty fingertip toggle actuator with variable-output that controls CSLLC motor control modules. Can be mounted to commercial or industrial equipment for easy manipulation.</p>	<p>\$1,429</p>
	<p>INDUSTRIAL CONTROL ACTUATOR Industrial control actuator with mounting bracket. Fingertip toggle actuator with built-in cable connects to motor control modules to vary fwd/rev speeds.</p>	<p>\$1,449</p>
	<p>HEAVY-DUTY FINGERTIP TOGGLE ACTUATOR Industrial fingertip toggle actuator for forward-reverse motor controllers. Provides variable-output that controls CSLLC motor control modules. Comes complete with hook & loop mounting for commercial or industrial equipment.</p>	<p>\$1,429</p>

3. Battery Chargers & Batteries

	<p>BATTERY ASSEMBLY The CS4102 is a 24V 3Ah NiMh rechargeable battery pack designed for heavy duty applications. The CS4102 is capable of a peak current drain of 50 amps. The NiMh batteries are designed for long service life and have an expected lifetime of 500 cycles.</p>	<p>\$1,175</p>
	<p>BATTERY CHARGER The CS1204 charger is a commercial/industrial market charger for 12V battery banks. This charger is also available in a UL-certified version.</p>	<p>\$349</p>

4. Cables and Other

	<p>SAFETY STRIP SENSOR The ASM000560 sensor strip is a six-section assembly used to stop the motor controller from pinching body parts in vehicle door frames. The 560 is designed for the left-hand doors of industrial and military vehicles.</p>	<p>\$1,900</p>
	<p>SAFETY STRIP SENSOR The ASM000561 sensor strip is a six-section assembly used to stop the motor controller from pinching body parts in vehicle door frames. The 561 is designed for the right-hand doors of industrial and military vehicles.</p>	<p>\$1,900</p>
	<p>RUGGED POWER CABLE The ASM000540 cable is a industrial grade assembly used to connect the CS motor controller to various operator interfaces. This cable can be adapted with different vehicle power terminations.</p>	<p>\$425</p>

 ASM000130X	VEHICLE POWER CABLE ASSEMBLY The ASM000130 cable is an industrial grade assembly used to connect the motor controller from the vehicle power bus to the fuse. This cable can be adapted with different vehicle power terminations	\$69
 ASM000125X	BATTERY POWER CABLE ASSEMBLY The ASM000125 cable is an industrial grade assembly used to connect the auxiliary batteries to the fuse negative terminal. This cable can be adapted with different vehicle power terminations.	\$34
 ASM000216X	VEHICLE POWER CABLE ASSEMBLY The ASM000216 cable is an industrial grade assembly designed for the breakaway connection to the motor controller. The breakaway connector is a standard 2-wire battery connector commonly used for forklift truck batteries.	\$299
 ASM000131X	VEHICLE POWER CABLE ASSEMBLY The ASM000131 cable is an industrial grade assembly used to connect the auxiliary batteries to the fuse positive terminal. This cable can be adapted with different vehicle power terminations.	\$59
 ASM000135B	VEHICLE POWER CABLE ASSEMBLY The ASM000135B is a 24 volt DC power cable with 2 #6AWG conductors in heat shrink tubing terminating in Amphenol 2-pin connector Mil-C-5015	\$448
 ASM000363X	POWER-CONTROL CABLE The ASM000363 is an industrial grade insulated cable provides power to motor controller assembly. This cable is 59" long with 8 conductors.	\$410
 ASM000364X	POWER-CONTROL CABLE The ASM000364 is an industrial grade insulated cable provides power to motor controller assembly. This cable is 123" long with 8 conductors.	\$520
 ASM000414X	POWER-CONTROL CABLE The ASM000414 is an industrial grade insulated battery cable provides power to motor controller assembly. This cable is 23" long with 2 conductors.	\$220
 ASM001175X	JOYSTICK/THUMB CABLE The ASM001175 is an industrial grade insulated connection cable that provides a connection between motor controller and joystick or thumb drive. This cable is 57" long with 3 conductors.	\$425
 CS2144-ASM	TRAVERSE POWER CIRCUIT BREAKER The CS2144-ASM is an industrial grade 60 Amp DC automatic reset circuit breaker.	\$3,900
 CS002861X <i>photo not available</i>	JOYSTICK MOUNTING BRACKET The CS002861 is an industrial grade mounting bracket for CS3218 joystick.	\$34
5. Medical Product Line		
 CS6101X	ELECTRIC MUSCLE STIMULATOR The CS6101 is a clinical-grade portable electrical muscle stimulator using the interferential protocol. This product requires a doctor's prescription per FDA 510(k) clearance.	Call For Pricing
 CS6102X	ELECTRIC MUSCLE STIMULATOR The CS6102 is a clinical-grade portable electrical muscle stimulator using the high voltage galvanic protocol. This product requires a doctor's prescription per FDA 510(k) clearance.	Call For Pricing
