Special Order Price List

The majority of our products are sold through OEMs who integrate our products into other systems. Some of our products are commercially-available and can be referenced by reviewing the table listed below. **Prices reflect our published cost for products. Contact us for an updated pricing quote. Call: 630 806-7062 Ext. 206**

Model # Series	Photo	Description	CS Part Number	Color	Compliant with Part Number	NSN Number	Price
CS3209		JOYSTICK ACTUATOR The CS3209 Series Joysticks are a single-axis joystick (left-right or up-down motion) that has been developed for industrial and commercial applications in tough environments and harsh conditions.	CS3209A	Green	6W728-6440293-01M1	-	\$2,195
			CS3209A-1	Green	19200-13064341-G	-	\$2,195
			CS3209B	Tan	6W728-6440293-200M1	1290-01-552-4497	\$2,195
			CS3209B-1	Tan	19200-13064341	-	\$2,195
CS3248		ITDS: PROGRAMMABLE DC MOTOR CONTROLLER The CS3248 Series is a 2nd-generation controller for the Improved Turret Drive System with a higher capacity motor, one additional control input and an external programming port.	CS3248C	Tan	6W728-6459609-200M1	-	\$6,395
			CS3248C-1	Tan	19200-13064367	-	\$6,395
			CS3248D	Green	6W728-6459609-01M1	-	\$6,395
			CS3248D-1	Green	19200-13064367-G	-	\$6,395
CS3249		LRAS: LOW PROFILE DC MOTOR CONTROLLER The CS3249 Series has the input/output and power ports that are located on the side of controller as opposed to the top. The top has special standoff mounting plate.	CS3249-1	Tan	-	-	\$6,895
			CS3249G-1	Green	-	-	\$6,895

ASM000125B		BATTERY POWER CABLE ASSEMBLY The ASM000125B cables are an industrial grade assembly used to connect the auxiliary batteries to the fuse negative terminal. This cable can be adapted with different vehicle power terminations.	ASM000125B	-	-	6150-01-560-0279	\$34
			ASM000125B-1	-	19200-13064354	-	\$34
			ASM000125B-2	-	6W728-6432542-01M1	-	\$34
ASM000127B		CABLE ASSEMBLY The ASM000127B cables are an breakaway cable to vehicle BUS cable assembly.	ASM000127B	-	-	6150-01-560-0249	Call
			ASM000127B-1	-	19200-13064353	-	Call
			ASM000127B-2	-	6W728-6432538-01M1	-	Call
ASM000216A		VEHICLE POWER CABLE ASSEMBLY The ASM000216A cables are an industrial grade assembly designed for the breakaway connection to the motor controller. The breakaway connector is a standard 2-wire battery connector commonly used for forklift truck batteries.	ASM000216A	-	-	6150-01-560-0297	\$299
			ASM000216A-1	-	19200-13064352	-	\$299
			ASM000216A-2	-	6W728-6435382-01M1	-	\$299
ASM000130B		VEHICLE POWER CABLE ASSEMBLY The ASM000130B cables are an industrial grade assembly used to connect the motor controller from the vehicle power bus to the fuse. This cable can be adapted with different vehicle power terminations.	ASM000130B	-	-	6150-01-560-0255	\$69
			ASM000130B-1	-	19200-13064349	-	\$69
			ASM000130B-2	-	6W728-6432541-01M1	-	\$69
ASM000131B		VEHICLE POWER CABLE ASSEMBLY The ASM000131B cables are an industrial grade assembly used to connect the auxiliary batteries to the fuse positive terminal. This cable can be adapted with different vehicle power terminations.	ASM000131B	-	-	6150-01-560-0284	\$59
			ASM000131B-1	-	19200-13064348	-	\$59
			ASM000131B-2	-	6W728-6432543-01M1	-	\$59
ASM000135B		VEHICLE POWER CABLE ASSEMBLY The ASM000135B cables are a 24 volt DC power cable with 2 #6AWG conductors in heat shrink tubing terminating in Amphenol 2-pin connector Mil-C-5015.	ASM000135B	-	-	6150-01-560-0229	\$448
			ASM000135B-1	-	19200-13064351	-	\$448
			ASM000135B-2	-	6W728-6432531-01M1	-	\$448
ASM001175		JOYSTICK/THUMB CABLE The ASM001175 cables are an industrial grade insulated connection cable that provides a connection between motor controller and joystick or thumb drive. This cable is 57" long with 3 conductors.	ASM001175A	-	-	6150-01-560-0238	\$425
			ASM001175A-1	-	19200-13064350	-	\$425
			ASM001175A-2	-	6W728-6432535-01M1	-	\$425
